

LIB Interpolator LT

The purpose of the LIB Interpolator program is to estimate an artificial WASP wind atlas file by spatial interpolation. The ZIP installation file contains the following files:

File name	Ext	Description
LibIntLT	exe	The LIB Interpolator (Light)
LibIntLT	mht	Documentation for LibIntLT
DefaultA	lib	Sample wind atlas file
DefaultB	lib	Sample wind atlas file
DefaultC	lib	Sample wind atlas file

Installation

Installation of the LIB Interpolator consists of extracting the files to a folder, e.g. C:\Program Files\Wasp\Utilities, and then make a shortcut to the executable file LibIntLT.exe.
